

Redefine Meetings With Microsoft Teams Rooms

Flexibility will define the new era of work. How will you adapt to the change?

See how Insight and Microsoft are empowering the next-generation workforce with an inclusive, innovative approach to meaningful collaboration.

Hybrid work is here to stay.

Remote work may be booming, but hybrid is taking hold:

Meeting challenges

- On- and off-site user locations
- Impaired collaboration
- Poor device integration

Microsoft Teams Rooms redefines modern meetings.

Microsoft Teams® Rooms is an innovative and customisable software and hardware solution empowering effective interpersonal collaboration — in-room and anywhere.

In the office On the go At home Anywhere

Create inclusivity and interactivity in one intelligent space.

- 1 Teams panel**
Provides an at-a-glance view of the room schedule and allows you to reserve available meeting spaces
- 2 Touch-screen console**
Connects to input devices, including laptops and mobile devices, and integrates additional conference room hardware
- 3 Collaboration bar**
Delivers clear audio and cutting-edge video that frames the meeting room to equalise in-room and remote participant experiences
- 4 Intelligent content capture**
Enables remote participants to see presentation content clearly and in real time, without disruption, due to built-in AI
- 5 Inclusive video layouts**
Lets you choose your optimal video conferencing space, with options for collaborative huddles, dozens of participants and everything in between
- 6 Intelligent speakers**
Labels captions and transcripts automatically with the name of the correct participant using AI for smart voice identification
- 7 Next-gen joining options**
Reduces complexity for participants with fast, effortless one-touch join, proximity command join, and voice-command join, while keeping traditional dial-in capabilities
- 8 Wireless content sharing**
Makes collaborating a breeze with easy-to-use content and screen sharing from any device at the touch of a button

Benefit from superior integration, flexibility and simplicity.

Teams Rooms makes meetings more of what they should be:

- Inclusive**
 - Live captions
 - Collaborative whiteboarding
 - High-quality video + audio
 - Companion device support
- Easy to use**
 - Intuitive, seamless Teams experience
 - Microsoft® Calendar integrations
 - Cortana® voice assistance
 - Room remote
- Flexible**
 - Scale to any room size
 - Multiple device types and kits
 - Access to Microsoft 365™ files
 - Core functionality on Windows® and Android OS
- Secured and managed**
 - Automatic updates
 - Secure by design out of the box
 - Manage devices and settings in one place
 - AI-driven operations management
